
Inventor Professional 2017 Portable

Download

Hi, I have Inventor Professional 8 and I'm trying to transfer a license to my new computer. when I open the laptop. I see this message: "Enter your license key and password to buy new hardware" I have never bought any equipment and I don't have any knowledge about it. I looked at the instructions that say you need to enter a license key password and I don't seem to have one. I think I didn't install it correctly because I think it's installed locally and the first time I run it I can see all the partitions and everything works fine. I don't know how to find it.
