
Descargar Programa Presto 10.22 30

September 30 2021. ISRG and Let's Encrypt ... Presto Chango! ... Since September 30 I can't access half of the Internet, including the Let's Encrypt website and files. This is not a temporary problem, but a permanent one. I think it's because we have to pay companies to let us share our content. I don't think it's a problem, given that it doesn't affect Google's web pages (which makes Google out of order, as you know) or at least it doesn't affect the sites I use. It doesn't seem to be affecting the Let's Encrypt site, and I assume most other sites aren't affected either.
