For a patient with a single colorectal liver metastasis, a new subtotal hepatic resection is presented for the first time. The arterial feeding vessels were identified by intraoperative ultrasonography. Using an ultrasonically insulated da-Vinci Surgical System, a wide subtotal hepatic resection with preservation of the middle hepatic vein and inferior vena cava was carried out. The patient has been disease free for 3 years 3 months, after the operation. A new subtotal hepatic resection is very effective and safe for a patient with a single colorectal liver metastasis. Socceroos players will be back in Australian soil at the end of the month, but it looks set to be in the back yard of Socceroos owner/chairman Frank Lowy. Germany's VfL Wolfsburg have confirmed they will visit Sydney during the international break, with 0cc13bf012
