Two quantitative in vitro methods were used to determine the concentration of soluble fluoride in a dentifrice formulation (1% amine fluoride and 0.5% sodium monofluorophosphate). The first method, based on the reaction with cerium IV, was found to be inaccurate when compared with titrimetric measurements of soluble fluoride. In this method, fluoride reacted with a soluble dichromate ion to form a precipitate, which was subsequently dissolved in hydrochloric acid. The second method, based on the reaction of the fluoride ion with hydrogen fluoride, was found to be more accurate but it resulted in high fluoride loss during the course of the experiment. Last month, the New York Times reported a list price of more than \$2,000 for a new iPad Mini, and \$500 for the 16 GB WiFi-only model. A warehouse worker who handles Apple's tablet computer supplies told the Times that he knew the price of the device was in the \$500 neighborhood, if not lower. "The iPad Mini is really expensive," the worker, who said he was not authorized to speak to the media, said in an interview that took place in May or June. "We have two major [companies] who buy from us, including Apple and Amazon," he said. The Times did not name the companies, but said one of them was an electronics wholesaler. The iPad Mini is the thinnest and lightest tablet in Apple's product line, but the Times reported that some retailers were asking almost \$1,500 for a 16 GB Wi-Fi model. Even the 16 GB Wi-Fi model costs \$999 in the U.S., and is available in Europe for £899 (\$1,240). The Times, citing a person with knowledge of the storage configurations, said the fact that Apple deliberately limited the tablet to 16 GB of storage indicated that the tablet's base price would not be less than \$500. The Times reported that even Apple's lower-priced iPad Mini, with a 16 GB Wi-Fi model, costs \$534 in the U.S. Apple's launch of the iPad Mini, which went on sale in November 2010, coincides with other developments in the tablet space. Amazon announced the Kindle Fire last month
